Roth Sugar Bush, Inc
Maple Equipment and Syrup
656 Tower Drive Cadott, WI 54727
(715) 289-3820 Fax: (715) 289-3821

Hello Sugarmakers,

It is so hard to believe that we are again closing in on another sugaring season. Where does the time go? We here at CDL/Roth Sugarbush hope this finds you all safe and healthy. As we all know this has been a very long and unpredictable couple of years. This virus we believe has affected everyone in one way or another so please know that we pray for all of you & your families that have been compromised either physically or in anyway this virus has affected you.

We are looking forward to this upcoming season! But again, as we all know there are some challenges that will go along with it. The supply chain as you all are aware is a struggle this year. CDL/Roth Sugarbush is doing everything in our power to have on hand all supplies to meet all of your sugaring needs. Our warehouse is bulging with supplies and more coming in everyday, but we encourage you to order your supplies early so you have them on hand when you need them during the sugaring season.

Along with the disruption in the supply chain there is also the shipping challenges. The cost of shipping has skyrocketed to say the least! So if you have the ability to pick up your products here at our store...that would save you from paying those crazy shipping costs. We are doing everything in our power to keep the cost of our products as low as possible so you can be as profitable as possible. Thank you for your patience when ordering and again know that we will do our best to fill your needs.

We will be having our Open House again this year, and we will be running it as normal with a "Full Lunch Menu". We will be having vendors, seminars and of course we will be offering our discount for cash and carry for those days. We do ask to save on time...that you call in your order ahead so we can have it ready for you. You can also place your order on our website...just check the box saying that you will be picking up your order at our store...and which day you plan on coming. The open house will be held Wednesday February 2nd thru Saturday February 5th from 8:00 am to 4:00 pm. Coffee and donuts starting at 8:00 am.

We look forward to seeing you all and please watch our website & like us on Facebook for the latest news, seminars and all the details.

We sincerely thank you all for your continued business!

Peter & Dawn Roth

**Annual Open House at our Superstore in
Cadott, WI. February 2nd, 3rd, 4th & 5th, 2022
8:00 AM to 4:00 PM each day**

Please visit our website and sign up for our Email Newsletter.

A WORD OF **WELCOME**

Dear customers,

Despite an underwhelming sugaring season for North American producers in 2021, the next few years look promising. The announcement of the addition of taps in Quebec, the record sales of maple syrup in the world, many developing projects on the USA side, and the growing international interest in maple syrup production—not to mention the numerous CDL projects underway like maple nectar, the sap division, and the shift to 4.0—represent exciting short- and medium-term opportunities for our industry.

However, there will also be challenges; out-of-control price inflation, labour scarcity, and rising production costs all mean that we will need to find innovative new methods to keep syrup production both profitable and appealing. CDL is ready to support you through these changes.

Supply chains have also been greatly affected by the pandemic. Although CDL has managed the situation well so far, we encourage all our customers to plan ahead for next sugaring season and their 2022 projects. Good planning will help us better meet your expectations, and, especially, guarantee your prices.

Our branches and regional teams have never been so well prepared to serve you and support you in your work. Their growing autonomy allows CDL to stand out from its competitors and to offer an unparalleled local service throughout North America and Europe.

In closing, the CDL team would like to thank you for your loyalty and understanding during the pandemic. There is a light at the end of the tunnel, and we can now dream of seeing each other in person more often in the near future.

We wish you a successful 2022 season! Rest assured that we will continue to advise and support you in all your projects, whatever they may be.

Signature SPOUTS

CDL Signature Spouts are the perfect choice for your sugarbush. Here's why:

PERFECT SEAL

The thin wall works with the perfect tapper to create a completely airtight seal.

MINIMUM RESTRICTION

The 45° angle facilitates sap flow and prevents residue or unwanted bacteria from accumulating.

LONGER SPOUT WORKS BETTER ON THICK BARK

Signature SPOUTS

NECTAR, A PROMISING PROJECT FOR MAPLE SUGARING

Vallier Chabot,
co-owner and general manager of CDL

A few years ago, CDL was approached by food processing companies who wanted to use maple as a sweetener. These companies were looking for an ingredient that had a consistent flavour and colour, and remained very stable in storage.

This is why, for nearly six years, CDL has been refining a process that transforms plant-based water into nectar. This nectar, a new value-added maple sweetener, will certainly revolutionize our industry because of its high nutritional quality and stability. CDL hopes that this innovation will propel the maple syrup industry forward and allow it to prosper in new markets like never before.

This project was quite a challenge. The goal was to create a maple sweetener that did not yet exist and for which there were no specifications beyond the three characteristics listed above. The challenge was even greater given that there was no equipment designed to make it. In a way, it was a nice blank canvas! This was a first for the CDL team: we had to work on both the process and the equipment to achieve the final product.

**SCAN TO SEE
THE VIDEO**

bit.ly/cdlvideos

Our team started from scratch, with only the goal of reaching the food processing companies' objectives. We started from the raw sap and crafted an entire process to make a final product that would meet the needs of the food processing industry.

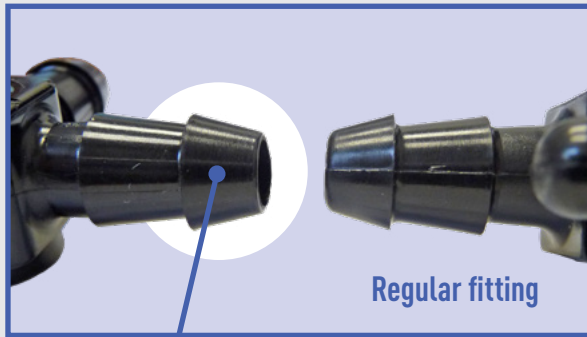

“ This project was quite a challenge. The goal was to create a maple sweetener that did not yet exist and for which there were no specifications.

Today, we can say mission accomplished! This new, unique, 100% natural sweetener is ideal for the food processing industry, since maple nectar retains all the nutrients and properties of maple sap. The nectar has a final Brix of over 60. It's not altered, denatured, or overheated, which gives it the best nutritional value possible. Instead, it's concentrated through physical filtering and gentle heating. Note that while the sap is heated, it's never cooked or boiled above 100 °C (212 °F). It can be kept in a warehouse, making it easier to use and store for food processing companies.

Although CDL has worked on other innovative projects in the past, we are confident that this project remains one of the most promising for the maple sugaring industry as a whole. Nectar is a sweetener with almost unlimited potential in food processing and can easily replace the liquid sugars used by many large food and food processing companies.

Watch the following video to learn more about this project!

MAXFLOW

Regular fitting

Better grip on tubing!

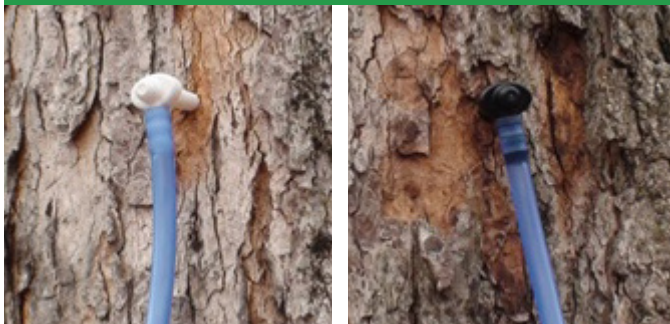

The new line of 5/16" Maxflow fittings was specifically designed and developed for maple producers wanting to operate over 25 in-hg (high vacuum).

These fittings enable a perfect seal with a vacuum level beyond 25 in-hg and offers the following advantages:

- > No parting lines on the first barb.
- > Precision moulding.
- > Eliminates micro-leaks caused by molding lines.
- > Better grip on the tubing.

66090514

17/64" white spout with barbs

66090515

17/64" blue spout with barbs

66090513

ACCORDING TO A STUDY FROM THE ACER CENTER

When comparing sap yield, the white Maxflow spout gave a **SAP VOLUME 7% HIGHER** than the black Maxflow spout.

CONCLUSION OF THE STUDY

In the studied sugarbush, white spouts gave a higher volume of sap compared to the black spouts.

This increase, recorded in the last part of the season, would be related to the color of the spout and its thermal absorption properties.

ADVANTAGES OF THE PRE-LASHED AND SPINSEAL COMBO

- The Professional's choice
- Potential savings of \$ 0.75 per tap, in labor and material
- Best value for the money of any mainline systems in the industry
- Resistant and very reliable system over time
- The most durable system that requires the least maintenance over time
- To try it, is to adopt it!

Interview by **Anne-Sophie Couture-Goulet**,
marketing coordinator

TIPS FOR SETTING UP A NEW SUGAR BUSH

I had the opportunity to interview Michaël Cliche, a forestry engineer by training who has been a maple sugaring advisor at the Association des propriétaires de boisés de la Beauce since 2018. He humbly agreed to share his knowledge with us on a fascinating subject!

Anne-Sophie Couture-Goulet (ASCG): What sorts of things do you need to consider before you even start preparing the site?

Michaël Cliche (MC): First, you need to be aware that it will take a lot of time and money. Many sugar bushes fail because owners don't keep up with their monitoring and investments. Until the trees are human-height (so 5 to 6 feet tall), they're vulnerable to a lot of things.

ASCG: What characteristics do you need to consider in a site?

DRAINAGE	ROCK CONTENT	SLOPE	TEXTURE	WATER TABLE	DEPTH
Fast	High	High	Rough	None	Thin
Good				Generally absent from 1 st m	
Moderate				In the 1 st m	
Imperfect				In the 1 st m	
Bad				Near the surface	
Very bad	Low	Low	Fine	Recovers the surface	Deep

MC: First, you need to make sure that the species you're planting can grow in our climate. Next, you need to check that the site has the right soil for that species. That means looking at things like drainage and texture—whether it's a very sandy soil or a clay soil, for example. Finally, you need to consider the fertility of the soil, which means considering the pH and mineral content.

ASCG: What is autecology? And why is it important for the development of your sugar bush?

MC: Autecology is a science that studies how species interact with their environments and each other. It concerns the environment around the tree, so things like shade, soil, pH, and competition with other species.

ASCG: In other words, you need to choose the right species of maple for your site.

MC: For syrup production, you usually see red maples and sugar maples. There's also the black maple, which is found more in the south of Quebec, and silver maples which are found more in wetlands or on riverbanks. Regardless of personal preferences, though, it's important to choose the right species for the site and its growth potential. You really need to make sure the species is a good fit for your location. In the end, it's better to have a species that can thrive on the site than one that you like, but is just barely hanging on.

ASCG: Would it be a good idea for maple producers to walk through their sugar bush and mark the trees that should be transplanted to a field or another parcel in the near future?

MC: Absolutely! Sugar maples and red maples have a reproductive strategy of establishing a large seedling bank. However, very few of those seeds make it to maturity. As a result, it's better to move those seedlings from high-density places to places where there are shortages, since they can be used for regeneration. Ideally, the goal is to have about 250 taps per hectare. And of course, walking through your maple grove to prospect in any season is always a good idea.

For more tips and details on how to successfully establish your sugar bush, check out the full interview online on our website!

MAPLE-CITRUS ENERGY BITES

YIELD: 10 balls or squares. Can be frozen.

Ingredients

- > 1 tbsp butter
- > 1/3 cup maple syrup
- > 1/3 cup orange juice
- > 1 tbsp chia seeds
- > 1/2 small lemon, juice and zest
- > 1 cup puffed wheat cereal
- > 1/2 cup puffed quinoa

Method

1. Melt butter in a saucepan and add liquid ingredients and chia seeds. Bring to a boil, then simmer 8 – 10 minutes.
2. Mix the puffed wheat and quinoa in a bowl.
3. Pour in the hot liquid, add the lemon zest, and mix well.
4. Stuff mixture into the molds of silicon ice cube trays or shape into little balls and place on a baking sheet.
5. Refrigerate 2 hours and they're ready to go!

Your sugaring operation's **intelligence**

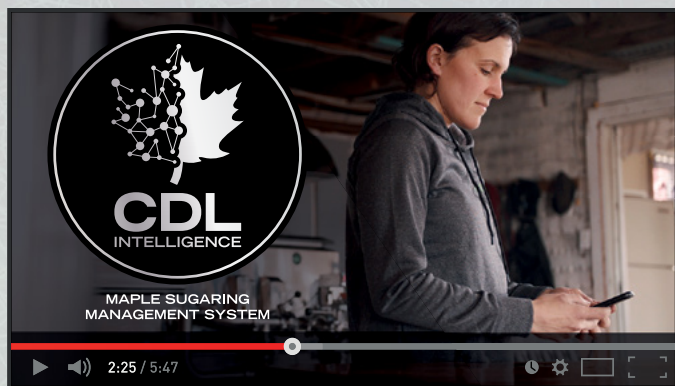

LET CDL INTELLIGENCE DO THE WORK FOR YOU!

The CDL Intelligence system gives you 24/7 real-time access to your sugarbush's key data so you can better understand your performance and ultimately boost your profitability.

Choosing CDL Intelligence means choosing a simple, reliable, and stable system that will help you:

- > Understand your sugarbush's situation in real time
- > Make sure your pumping stations are working properly
- > Get the most out of your equipment
- > Take control remotely as soon as a problem arises
- > Save time and money

MAPLE SUGARING
MANAGEMENT SYSTEM

CDL Intelligence, a sugarhouse management system that allows the complete automation of systems and processes.

From surveillance to absolute control and automation of the systems of your sugaring operation, **let CDL intelligence do the work for you!**

**Easy to install,
easy to use**

**Quick return on
investment**

Boost production by at least 1/2 lb per tap
while reducing labor costs

**Automatic
remote updates**

**CDL maintenance
and technical service**

HERE ARE THE FEATURES YOU'LL HAVE AT YOUR FINGERTIPS WHEN YOU CHOOSE A CDL INTELLIGENCE SYSTEM:

- > Satellite overview of your sugarbush and tubing with a satellite map (KML/GPS/GPX)
- > Detection of leaks and loss of vacuum in the sugarbush
- > Remote vacuum control and start/stop
- > Pumping station monitoring
- > Tank level monitoring
- > Remote valve and pump start/stop
- > Temperature-based vacuum and drive adjustment
- > Continuous flowmeter and Brix readings
- > Integrated communication with Intelligent RO
- > Support for multiple communication gateways (remote and not)
- > Remote cloud-based access from your computer, tablet, or smartphone
- > Alerts on your smart phone or tablet
- > Day and night infrared camera surveillance
- > Automation of many repetitive daily tasks
- > Ability to have multiple users with different levels of control
- > Time and employee task management
- > Geolocation of employees in the woods

**NEW**

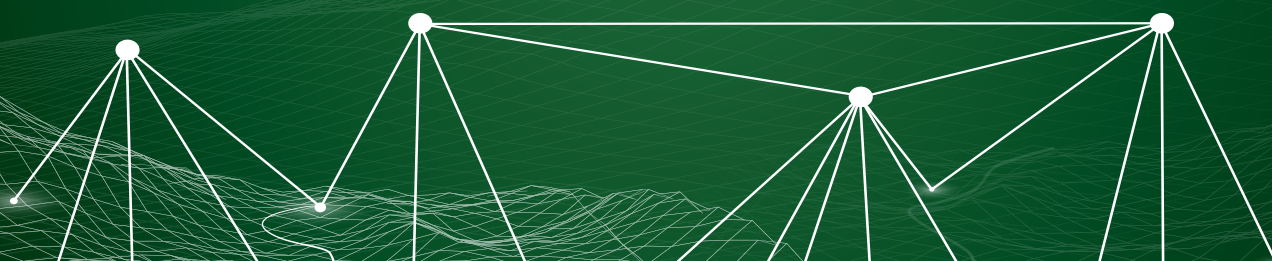

- > Control and protection module for pressure pumps
- > Control and protection for manual RO

WISEMESH

**SMART MAPLE PRODUCTION NETWORK**

THE ONLY INTELLIGENT NETWORK DEDICATED AT 100% FOR MAPLE SUGARING, TOTALLY DEVELOPED BY CDL.

Your CDL Intelligence system is supported by the CDL Wisemesh network. The experience acquired with the thousands of installed sensors allows us to offer **the only maple sugaring intelligent network on the market.**

**WITH CDL INTELLIGENCE,
YOU'RE GAINING ACCESS
TO A RESPONSIVE,
USER-FRIENDLY
INTERFACE.**

**IT'S GUARANTEED TO
MAKE LIFE EASIER,
WHETHER OR NOT
YOU'RE TECH-SAVVY.**

- [illegible]

The screenshot displays the QGIS desktop environment. The main window shows a topographic map with a network of green lines and points, likely representing a hydrological or ecological model. The left sidebar contains a list of layers, including 'Topographie', 'Vegetation', and 'Hydrographie'. The top bar shows the QGIS logo and version number (2.18.0).

[illegible]

 **CDL** cdlinc.ca | cdlusa.com

STARTER KIT

KIT INCLUDES:

- > 5 single vacuum sensors
- > 1 gateway
- > 1 controller (mini-pc)
- > 1 HD monitoring screen
- > 1 wireless mouse + keyboard

Possibility to add-on to your needs over the years.

21090-EN

OUTDOORS

Vacuum sensor (single)

- A** Remotely measure the vacuum in one master line and see the ambient temperature in the woods. Solar powered.

SE100-V

Vacuum sensor (double)

- B** Remotely measure the vacuum in two master lines and see the ambient temperature in the woods. Solar powered.

SE100-V-2

Communication gateway V2

- C** Ensures that information is transmitted between the wireless vacuum sensors and the control hub.

SG100-V2

Qi wireless charger and AC/DC adaptor PG200 assy

- D** Induction charger for the portable gateway.

22201A

V2 antenna deployment kit (20 ft)

21072

INTERFACE

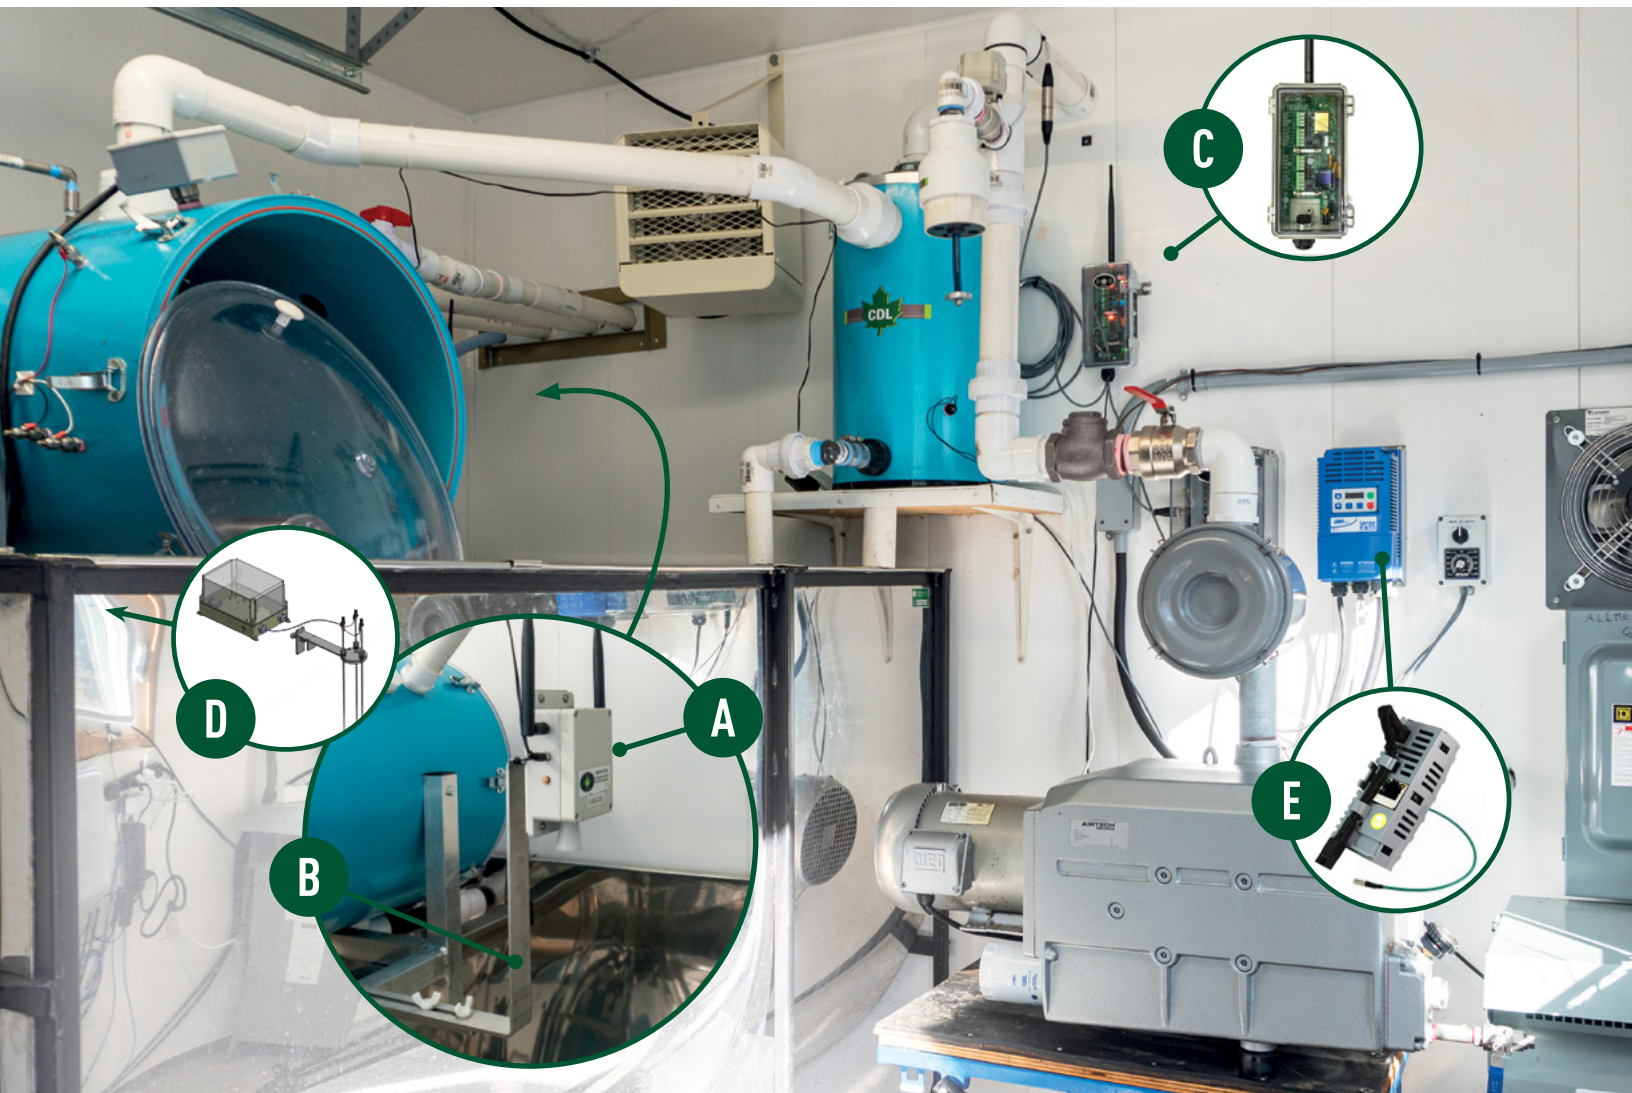

CDL Control base

Microcomputer required to run your CDL Intelligence system on your devices (computer, tablet, smartphone).

21082A

PUMPING STATION

**Tank level sensor**

- A** See the levels of sap or concentrate remotely, in real time. You can also receive alerts when the water or concentrate reaches a certain level.

SA100-HT

Tank level sensor holder

- B** Allows you to mount your tank level sensor at the correct distance from the tank walls for a better reading.

21120

Multifunction controller (in/out)

- C** Includes two inputs and two outputs. Allows for max 240 V/10 A valve modulation and/or dry-contact on/off.
New and ultra-compact design. Works with Wisemesh only.

SE200-M2

Tank level sensor kit with probes

- D** Provides automatic control of pressure pumps.

66551

Communication module

- E** Can be added to the phase converter for LENZE vacuum pumps to manage RPM based on the outdoor temperature.

21206

**Submersible level sensor 4-20mA**

Level reading by pressure. For closed tanks, silos or automated ROs

679610030

Tank bracket Allows you to suspend the submersible level sensor (679610030)

731448

PUMPING STATION (CONTINUED)

PUMP SAFETY MODULE

**Avoid losses and be notified if a problem arises.**

Pump safety module that can be easily connected with maple sugaring management system CDL Intelligence (called before monitoring).

Used to stop a water pump when desired parameters are not met (minimum pressure, maximum pressure and duration in seconds). Connected with CDL Intelligence, the system will send you an alert on your cell phone if there is a problem. You will also be able to consult the status of your system remotely.

- > Waterproof plastic case
- > 110V power supply
- > 1/4" MIPT pressure probe included (to be installed on the discharge line)

Safety box for local booster water pump only 521252

Safety box for local booster water pump + monitoring 521256

4.0 MEGAPIXEL PAN & TILT WIRELESS IP CAMERA

**AVAILABLE
SUMMER 2022**

**AFFORDABLE, STYLISH, INTUITIVE, EASY SET UP:
Camera and App are easy to install and simple to control.**

CDL CAM Super HD video and up-to-33 feet Night Vision that uses 13 IR LEDs allow you to look after your sugarbush day and night. Pre-set positions (up to 16) to allow you to easily focus and monitor what you need.

Works with either ethernet or 2.4/5GHz Dual-Band WiFi networks, which provide a reliable WiFi connectivity to access your camera with CDL Monitoring app on mobile device, and with PC at anytime, anywhere.

REMOTE PAN TILT: Remote control camera rotate 355° in horizontal and 120° vertical ensuring you always have a clear view of your sugaring installation.

VACUUM REGULATING MODULATING VALVE

CDL MONITORING SYSTEM OPTION FOR REMOTE VACUUM MODULATION

ADVANTAGES :

- > Improve vacuum management to prevent premature mainline freezing when temperature are close to 0 °C
- > Energy saving when the system is frozen or during the night when the sap is running very little
- > Better vacuum management. Can allow quicker sap flow at the beginning of the day for systems that are not tight

EMPLOYEE MANAGEMENT MODULE

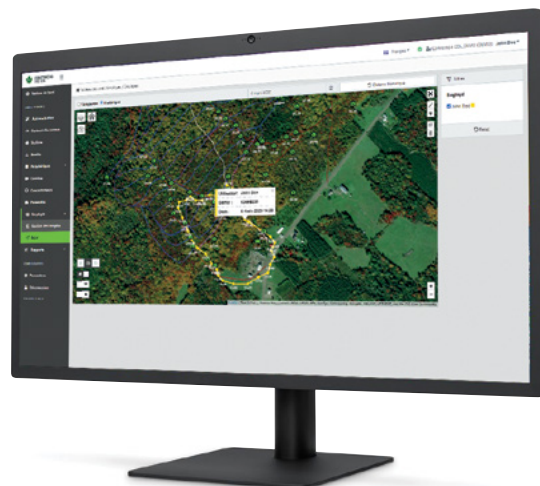

MANPOWER MANAGEMENT OF YOUR SUGARING BUSINESS CAN NOW BE DONE WITH THE CDL INTELLIGENCE SYSTEM!

FROM THE WEB INTERFACE, THE SYSTEM ADMINISTRATOR CAN:

- > **Build personalized reports on employee tasks, for example:**
 - > Who did the work
 - > Date the work was done
 - > Time spent on the task
 - > Apply filters on employees, the type of work, the period, etc.
- > **Build timecard reports**
 - > Filter by employee or period
 - > Simplify pay management by getting the time for each employee for a period
- > **Detailed view of timecards**
 - > Day by day time entries detailed by type of task
 - > Filter per period

FROM THE MOBILE APP,

- > **Log employee displacements**
- > **Time card: Start/stop the stopwatch and possibility to specify the task**

**THIS BRAND NEW MODULE CAN MANAGE THE DAILY ROUTINE FOR YOU.
FOR MORE DETAILS, CALL YOUR CDL SALES REPRESENTATIVE.**

CDL EXPERTISE AT THE SERVICE OF MAPLE SYRUP PRODUCERS!

**DID YOU KNOW THAT THE CDL
TEAM IS HERE TO MEET ALL
OF YOUR NEEDS?**

**HERE IS THE LIST OF SERVICES
WE OFFER. ASK YOUR STORE
OR YOUR CDL REPRESENTATIVE!**

> **Project evaluation**

Have your project fully assessed by our experts, who have access to a large inventory in real time.

> **Maple syrup and technical advice**

Take advantage of the advice of our experts to calculate the pipe sizing and discharge calculation.

> **GPS mapping**

Optimize the strategic positioning and planning of your equipment using GPS technology.

> **Installation of mainlines and tubing**

Take advantage of the industry's best practices and ask our experts to install your mainlines and tubing in your forest.

> **Equipment rental**

Rent an Electrofusion welder or a SpinSeal welder for your one-time installation needs. Verify with your CDL branch to find out if other equipment is available for rental in your region.

> **Assembly of drop lines**

Make your life easier with our drop line assembly service! Available in every CDL store.

> **Implementation of the CDL monitoring system**

Get advice from our experts on our forest surveillance system. Our team will assess your needs and guide you step by step on its installation in your sugarbush.

> **Turnkey installation of equipment**

When making your purchase, ask our experts to deliver and do a complete installation of your CDL equipment directly to your sugarhouse.

> **Repair at the sugarhouse**

Start maintaining your equipment before the start of the sugar season! Our team will come to your sugarhouse to repair your electrical, welding, plumbing, start-up and burner adjustment problems, for any brands.

> **Personalization and modification of equipment**

Add your company name to your CDL equipment, or request custom adjustments if you have specific needs.

> **24/7 assistance during the sugaring season**

During the sugaring season, our team is available 24 hours a day, 7 days a week to respond to your emergencies.

VARIABLE SPEED EXTRACTOR

ADVANTAGES

- Continuous sap evacuation;
- Progressive pump start;
- Progressive pump stop;
- Minimizes amperage peaks;
- Pump adapted to pump up water;
- Stays clean;
- Continuous action.

HORIZONTAL EXTRACTORS WITH SUBMERSIBLE PUMP

**OFTEN COPIED,
NEVER EQUALLED!**

The specified measurement is the distance between the base of the extractor and the center of water entry.

: AVAILABLE IN 3 PHASES 208V, 460V ET 575V.

ADVANTAGES

- No sap-return in the 5/16" tubing;
- High quality submersible pump;
- Pump adapted to pump up water;
- No air in the tubing system while extracting sap;
- Solves the sap extraction problems caused by pumping at high vacuum;
- No float, extremely reliable.

Pressure gauge not included

LOW HORIZONTAL EXTRACTORS

The specified measurement is the distance between the base of the extractor and the center of water entry.

ADVANTAGES

- Very low (**only 24" from the ground**);
- No sap-return in the 5/16";
- High quality submersible pump;
- Pump adapted to pump up water;
- No air in the tubing system while extracting sap;
- Solves the sap extraction problems caused by pumping at high vacuum.

Submersible conversion kits available.

Pressure gauge not included

⚡ : AVAILABLE IN 3 PHASES 208V, 460V ET 575V.

**Ideal up to
1 000 taps
at 29Hg.**

1224ES

EXTRACTOR GRID

- Made of stainless steel
- Very strong
- Can be installed on extractors already in place.

The grids are designed to hold ice, wood shavings or plastic and it prevents them from getting in the pump and damage it.

Available in multiple sizes. Ask about them!

SELF-CLEANING EXTRACTORS

OUR EXTRACTORS ARE NOW AVAILABLE WITH A SPRINKLER FOR SELF-CLEANING!

SELF-CLEANING EXTRACTORS KITS MAY ALSO BE INSTALLED ON YOUR EXISTING EXTRACTORS!*

72000200

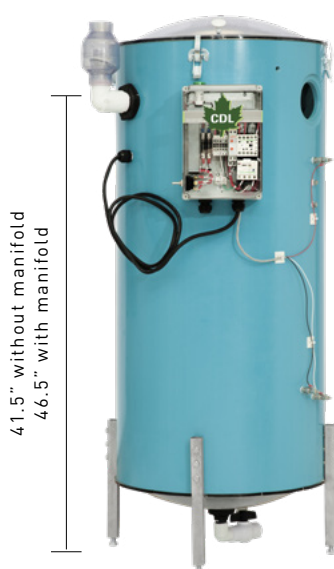

* Requires external pump and plumbing (not included). Contact us for details!

360° CLEANING EFFICIENCY

VERTICAL EXTRACTORS WITH SUBMERSIBLE PUMP

CDL HIGH VACUUM SAP LIFTER KIT

THE NEW OPTION TO SOLVE FREEZING, MECHANICAL AND LEAK PROBLEMS IN A REVERSE SLOPE APPLICATION.

- ✓ No need to have power, the system works on solar energy. An optional 230 V low consumption is also available.
- ✓ Access the inside through a small or a large door in the front.
- ✓ Continuous heating with a safe propane pilot to prevent freezing (propane tank not supplied).
- ✓ Mainlines entry completely reversible.
- ✓ Leak free system that won't freeze to reach maximum vacuum.
- ✓ Easy installation and maintenance using quick connects.

This equipment is used to lift sap from one pipe to another sloping down to a pump station. The system can lift sap up to 20 or 33 feet of elevation depending on model.

INCLUDES:

- > High quality insulated plastic shelter.
- > Reliable system using a submersible pump
- > Quick connect electrical components
- > 1 foldable (in 3 sections) solar panel for easy transportation and installation, giving 300 watts of charging capacity. (solar model)
- > 2 batteries (solar model)

4 AVAILABLE MODELS:

12 V solar model - From 200 to 700 taps*
73800012V1P

230 V electric model with 1 pump
From 300 to 1 000 taps*
7380002301P

230 V electric model with 2 pumps
From 600 to 2 000 taps*
7380002302P

230 V electric model with two 280 GHP pumps in series
From 275 to 875 taps* Max 33 feet of elevation
7380002302P

* May vary depending on vacuum level.

THE ADVANTAGE OF VACUUM **MODULATION**

Installing a valve to modulate vacuum has one main advantage: it will increase the volume of your sap runs by preventing freezing in your lateral lines and mainlines when temperature outside is humid and around freezing point. Also, when the temperatures are very cold and you keep the pumps running, dropping the vacuum level will prevent hard freezing of the lateral lines and mainlines. Using this new technology, you should observe earlier sap runs.

The vacuum modulating valve is installed near the vacuum pump inlet. Managed by our CDL Intelligence system, the valve will automatically set itself to a preprogrammed optimum combination of vacuum and outside temperature that you have predetermined for your sugarbush to maximum the length of your sap run before freezing.

In high-vacuum systems, micro leaks can cause early freezing stage issues in 5/16" tubing and mainlines even with temperature above freezing point, especially when there is a lot of moisture in the air. As we know, maple trees can keep giving sap until the temperature reaches 0 °C and sometimes less. If you can prevent early freezing stage, you will get more sap production. This is what all sugarmakers want and should be looking for with this innovative CDL way of managing vacuum.

Remember, every drop counts; a gallon of 2 Brix sap is worth about \$1.00.

Contact us to learn more. We'd be happy to help you!

CHOOSE A HIGH VACUUM PUMP : THE BEST INVESTMENT FOR YOUR BUSINESS!

WE DID THE MATH!

- > Go from 25 to 29"Hg of vacuum and increase production by 20%
- > Go from 3,5 to 4,2 lb per tap gives:
 - + \$7 000 of revenue / year for 5,000 taps
 - + \$14 000 of revenue / year for 10,000 taps
 - + \$42 000 of revenue / year for 50,000 taps

A 1 YEAR RETURN ON YOUR INVESTMENT!

DIAPHRAGM VACUUM PUMPS

(IDEAL FOR SMALL PRODUCERS)

See through cover!

A

Source : 120 volts

B

See through cover!

C

ADVANTAGES

- Pumps up to 22" Hg;
- Works without a sap extractor;
- Easy to use and very compact;
- Liquid won't damage the pump;
- Can run dry without problem.

Inline filter required to prevent ice from going in the pump. See page 82.

Note: These pumps must be protected from freezing.

Replacement diaphragm

CDL VERTICAL SILOS

SPECIFICALLY DESIGNED FOR SUGARING NEEDS

- ✓ Superior quality, CDL fabrication in brushed stainless steel
- ✓ Reinforced urethane insulated base with anchor points
- ✓ Sloped bottom for complete drainage
- ✓ Available sizes:
8 foot diameter:
Height of 7.5', 10', 12.5', 15', 20' and 25'
12 foot diameter:
Height of 10', 15', 20' and 25'

bit.ly/cdlvideos

INCLUDES:

- > 360° rotating spray ball
- > Manhole at the bottom
- > Water inlets (1 from bottom and 1 from above) and outlet 3"
- > Air vent with screen for venting without bugs or any undesirable debris

OPTIONAL:

- > Personalization with your name and/or logo
- > Manhole on top
- > Ladder and platform following all the safety standards in Canada and the United States
- > Protection cage for ladder
- > Many pump models available for spray balls (piping and connections extra)
- > Pressure transmitter, temperature transmitter and level indicator through the CDL Intelligence system
- > Cage to link building to silo
- > Stainless steel top feed plumbing
- > Stainless steel supply plumbing for rotating spray ball

CDL TRANSPORT TANK

INCLUDES:

- > 1x 3" inlet
- > 1x 3" outlet
- > 8" inspection hole for the 500 gallons and 24" for the 1 000, 3 000 and 3 800 gallons
- > Lifting anchors
- > Anti-wave separation, acting as baffles to reduce sloshing during transport for the 1 000, 3 000 and 3 800 gallons

OPTIONAL:

- > Water level
- > Single wash ball
- > Double wash ball
- > Ladder

500 gal US 66TR500
1 000 gal US 66TR1000

3 000 gal US 66TR3000
3 800 gal US 66TR3800

SPECIFICALLY DESIGNED FOR SUGARING NEEDS

New transport tank line available in four different sizes to suit all your needs!

Transporting your water from one site to another has never been easier and safer!

Heavy-duty,
made of 304 stainless steel

ROUND BOTTOM TANKS SMALL AND LARGE CAPACITY

**MORE THAN 125 SIZES AVAILABLE
FROM 50 to 7 500 gallons.**

Complete listing on our website

ADVANTAGES

- Food grade and strong high quality welds allow complete sanitizing;
- Made of bright 304 stainless steel.

**Elevated 6"
for easier
plumbing**

Personalize your tank!

UNIVERSAL MIXER AND STAINLESS STEEL SUPPORT

Universal mixer for
4', 5', 6' and 7' wide tank

6792034

Adjustable stainless
steel support.
1/2 HP motor at 30 RPM,
115 Volts with 10'
electric cord.

Note: a cut in length may be required to adjust the height. Prices are available upon request.

PLUGS

FOR TANKS

1-1/2"	5' rod	678112
2"	5' rod	678123
3"	7' rod	67BOUCH37

TANK LEVEL CONTROL

6' level control for CDL tanks 73500-6

ADVANTAGES

- The CDL tank level controls are made entirely of stainless steel;
- In addition, you can very quickly and easily adjust the desired sap level where the pump will start;
- The solidity of CDL controls prevent breakage caused by ice.

ULTRAFILTRATION

Be a part of the next innovation in maple sugaring

TECHNOLOGICAL ADVANCEMENT OF FILTRATION

- Eliminates all bacteria and yeast present in the sap;
- Increases preservation time of sap and concentrate at room temperature;
- Reduces sap waste after long distance transport;
- Produces pure and clear sap;
- Essential for maple syrup producers that want to bottle maple sap;
- Can be used to prevent production of stringy maple syrup when the days are warm during or at the end of the season.

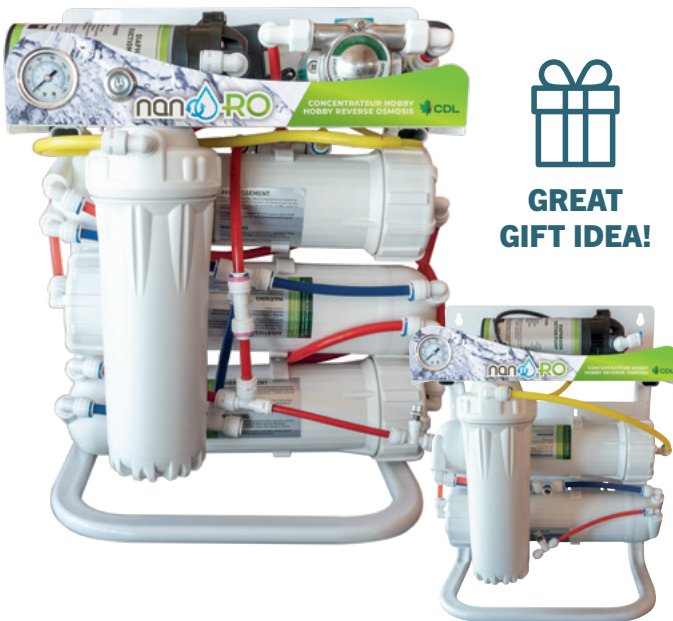

CDL quality standards and simplified operations

- Designed and made for very fine filtration of maple sap, birch sap and concentrate
- Eliminates bacteria, yeast and other organic particles from liquids
- Improves sap and concentrate preservation time

nanRO

- > Simple and efficient design
- > Three step pre-filtration to eliminate impurities
- > Efficient membrane system
- > Includes 600 GPD membrane, cartridge pre-filters and hook-up tubing
- > Low electric consumption 110 volts

2 AVAILABLE MODELS :

3 membrane model with recirculation

81013R

- > Ideal for 50 to 150 taps
- > 10 to 13 GPH
- > Concentration up to 6 Brix
- > Recirculation pump to maintain performance longer

2 membrane model

81008

- > Ideal for 25 to 75 taps
- > 6 to 8 GPH
- > Concentration up to 5 Brix
- > Easy to operate
- > Very affordable

Replacement parts:

- > 6682101 - PP Filter 600 GAL.
- > 660600 - 600 GPD RO Membrane

ULTRA COMPACT HOBBY RO

- > Ideal for 200 to 400 taps
- > Process 50 gallons per hour
- > Easy drainage
- > Ultra compact design
- > CDL made = quality product
- > Easy to use and store

81050

VERTICAL HOBBY RO

- > Ideal up to 2000 taps
- > 125 GPH to 250 GPH (1 or 2 posts)
- > Main unit in stainless steel
- > Frame on wheels for easy moving
- > Easy drainage
- > Pump in stainless steel
- > 4" post in stainless steel
- > Membrane: CDL MRO
- > High and low pressure protection
- > Power : 120 volts (17 Amps), 240 volts (10 Amps)

**WASHING TANK
OPTION**

OSHO-A00007

81125V	120 V	125 GPH
81125V-240	240 V	125 GPH

REMOTELY CONTROL

YOUR CURRENT RO FOR
AN AFFORDABLE COST!

You have a reverse osmosis concentrator and would like to remotely manage certain key stages in the concentration process?

It is now possible to add an affordable module with different options to control your current system at your fingertips, no matter which model you have or which company it's from. An easy novelty to install. Now available at CDL!

Here's what it can do:

- > Start/stop the system
- > Operate tank valves (sap and permeate)
- > Direct concentrate and filtrate to tanks or other locations
- > Manage pressure and concentrate flow
- > Read input pressure and turbine high/low pressure
- > Read permeate or concentrate flow rate
- > Read incoming and outgoing Brix
- > Read temperature

The best part?

It's a small investment and simple to use!

This solution is perfect for customers who don't have an intelligent RO system yet. It's even available for mini ROs!

Contact our team to upgrade your current equipment and make your life easier!

LA FENDEUSE CLASSIC

- > 500 GPH to 1500 GPH (1 to 3 posts)
- > Main unit all made of stainless steel, including both 3 way valves and wash tank
- > Posts: Positive recirculation system allows you to run many hours without losing performance. It also helps extending membrane life
- > RO post : maintenance free and reliable submersible motor for over 15 years
- > Membrane: CDL MRO
- > High temperature protection and low water protection

600 GPH RO

LA FENDEUSE DELUXE

- > 500 GPH to 3600 GPH (1 to 6 posts)
- > All made of stainless steel
- > High pressure pump from 5 to 7,5 HP giving the highest flows on the market
- > Posts: Positive recirculation system allows you to run many hours without losing performance. It also helps extending membrane life
- > RO post : maintenance free and reliable submersible motor for over 15 years
- > Membrane: CDL MRO
- > High temperature protection and low water protection

20+ RO

- > Capacity up to 7600 GPH at 20 Brix
- > All made of stainless steel
- > High pressure pump from 5 to 7,5 HP giving the highest flows on the market
- > Posts: Positive recirculation system allows you to run many hours without losing performance. It also helps extending membrane life
- > Concentration capacity adapted to your needs
- > Personalized post configuration (single or double, vertical or horizontal)

CONTINUOUS BRIX READER

- > Real time Brix reading of concentrate
- > Can be installed on any RO
- > Allows an accurate reading of your adjustment in real-time

668417

See the next page for post configuration.

CDL POSTS FOR RO

- > Available 4", 8" (single or double), 16"
- > Positive recirculation system allows you to run many hours without losing performance. It also helps extending membrane life
- > Reliable, maintenance free submersible motors
- > Membranes: CDL MRO 4", 8" (single or double), 16"
- > 8" membranes available standard or high pressure (for high Brix concentration)

16" post - Vertical

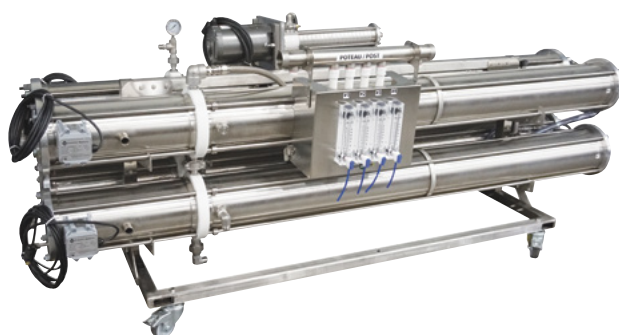

16" post - Horizontal

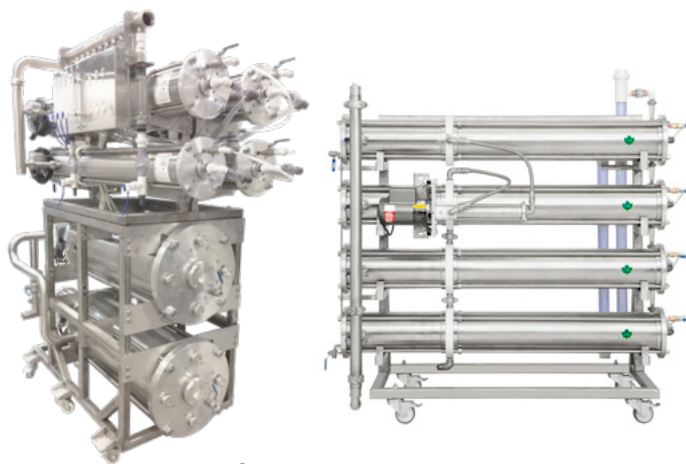

POST CARTS

VERTICAL OR HORIZONTAL CART, PREVENTING MEMBRANES FROM PLUGGING AT HIGH BRIX.

Can easily be added to an existing CDL RO with or without cart.

- > Post with two 8" membranes end-to-end;
- > More compact;
- > Less expensive;
- > Less energy consumption.

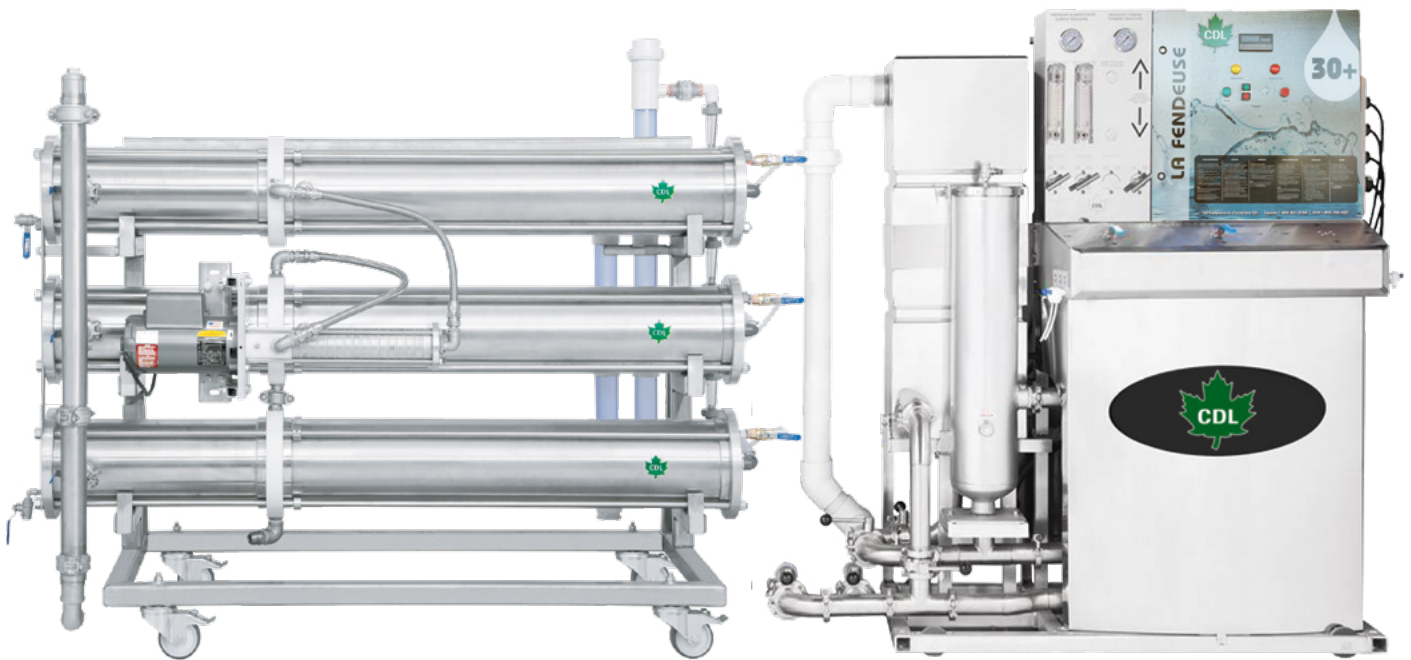

- > Compact;
- > Ultra simple connections;
- > Easy to operate;
- > Easy access to the membranes.

30+ HIGH BRIX RO OPTION

DOUBLE THE CONCENTRATION LEVEL BY ADDING THIS RO TO YOUR EXISTING RO!

**MANY POSSIBLE COMBINATION DEPENDING ON YOUR SET UP.
PERSONALIZED CONFIGURATION TO UPDATE YOUR STANDARD RO
INTO A HIGH BRIX MACHINE.**

WITH THIS MACHINE, GO FROM 15 BRIX TO 30 BRIX.

**CDL is the only manufacturer that
offers custom configurations to
upgrade your standard RO to turn
it into a High Brix system.**

HIGH FLOW

CDL's unique patented recirculation system
doubles the performance of membranes.

CDL INTELLIGENT REVERSE OSMOSIS (RO'S) ARE THE MOST POWERFUL AND ADVANCED IN HISTORY OF THE MAPLE SUGARING.

- > RO data saved on CDL Cloud
- > Remote maintenance and support
- > Get specialized expertise quickly
- > Allow you to remotely manage all the operations that must be performed by an RO
- > Simple programming allows you to safely operate the equipment during your rest hours, work hours or when away from the sugar house

REMOTE FEATURES:

- ☛ Concentrate;
- ☛ Rinse the membranes;
- ☛ Membrane soap wash;
- ☛ Membrane acid wash;
- ☛ Control sap or permeate feed;
- ☛ Continuous Brix control;

INTELLIGENT MANAGERMENTS:

- ☛ Concentrate Brix monitoring;
- ☛ Maple sap Brix monitoring;
- ☛ Permeate flow reading;
- ☛ PH monitoring and control;
- ☛ Conductivity meter;
- ☛ Preventive management (plugging);
- ☛ High and low pressure protection;

INTELLIGENT SOFTWARE UPDATES

The CDL intelligent ROs often receive wireless software updates adding new characteristics and functionalities.

CDL's intelligent reverse osmosis can be supervised and operated by the CDL Intelligence management system.

CDL pH NEUTRALIZATION SYSTEM

REDUCES THE IMPACT OF THE DISCHARGE OF WASH WATERS IN THE ENVIRONMENT

- ✓ Simple, economical and efficient design
- ✓ The system makes it possible to meet the state regulations on wastewater discharge in maple syrup industry
- ✓ Design with 2 pH probes to reduce the volume of water to be treated and the quantity of neutralizing agents (acid and basic)
- ✓ Control at your fingertip with HMI touchscreen
- ✓ Automated and autonomous functions
- ✓ Complete control of the system pH probes, valves and pumps
- ✓ Programmable operational parameters
- ✓ Wall installation of the control box or optional stainless steel tripod
- ✓ Variable capacity recirculation pumps and neutralization tanks options (not included with basic system)

HOBBY EVAPORATORS

The CDL Hobby Evaporator is designed for recreational producers who want to enjoy springtime, while boiling small quantities of maple sap to produce a few gallons of maple syrup per season.

SYRUP DRAW-OFF NOW FULLY REVERSIBLE!

One pan model

18" X 48" INCLUDES:

- Stainless steel furnace with steel grids
- Stainless steel stack
- 18" x 48" 304 stainless steel argo welded pan
- Stainless steel draw-off valve

18" X 48" evaporator
with 2-way flat pan
1 to 75 taps

6700102WD

18" X 48" Evaporator
with 18" x 36" flue pan
and 18" x 12" syrup pan
50 to 125 taps

6700102WP

AVAILABLE OPTION:

- Pre-heating pan 67112WPARE

One flue pan and one syrup pan model

18" X 60" INCLUDES:

- 18" x 42" flue pan
- 18" x 18" syrup pan
- Float box with rear control level.
- Complete smoke stack.

18" x 60"
5" flue pan
100 to 200 taps

67001

Product appearance may vary.

**Combine your evaporator with a Nano RO.
It will reduce your boiling time! See page 72.**

PROFESSIONAL EVAPORATORS

The Professional evaporator is a high quality wood evaporator for owners of small sugarbushes. It is designed and manufactured to provide efficient boiling and easy/stable syrup finishing.

Its performance in relation to its size will surprise you.

Argon welded reversible finishing pan

**SYRUP DRAW-OFF NOW
FULLY REVERSIBLE!**

Product appearance may vary.

THE TRADITIONAL EVAPORATORS AVAILABLE IN SIZES: 2-1/2' X 8' TO 5' X 16'

The Traditional CDL evaporator is designed for owners of medium and large sugarbushes wishing to keep the tradition alive of boiling the syrup with firewood while being effective and efficient. This evaporator will provide an incomparable boiling stability. Its robust construction will allow many generations to experience the pleasure of boiling maple syrup.

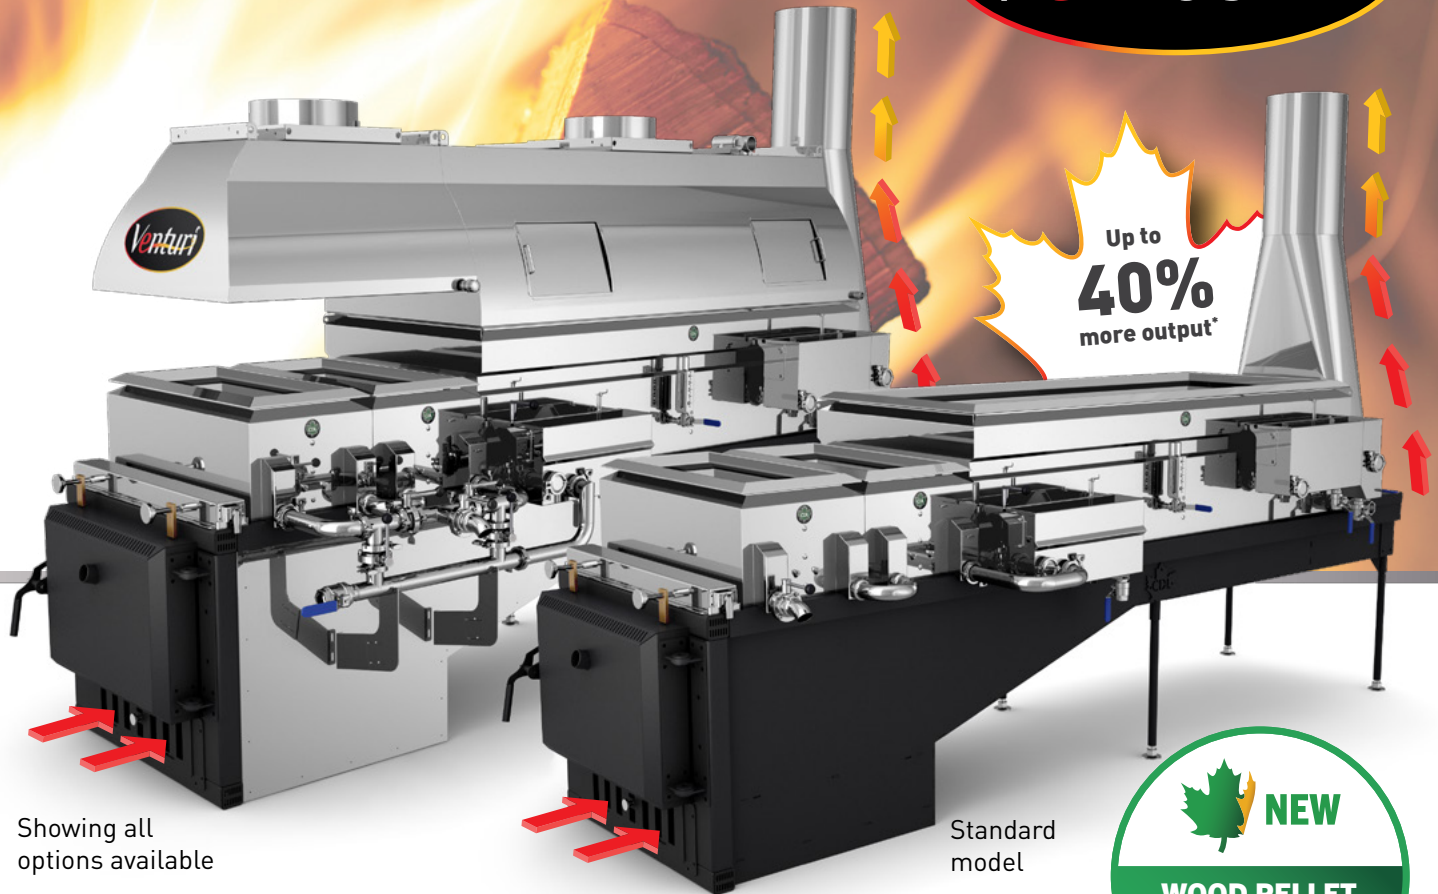

INCLUDES:

- 32" high furnace with cast iron grates and 2 doors for wood loading.
- 1 flue pan with 7" argon welded flues.
- 2 to 3 argon welded syrup pans for finishing (depending on model)
- Front and rear float boxes.
- Stainless steel connections, drain valve and draw-off valve.
- Complete chimney (twice the length of the evaporator) including the stack.
- 1 rope operated stack cover.
- Water level on flue pan.

Product appearance may vary.

options available

Standard
model

The new **airtight high performance Venturi** evaporators has a unique **artificial draft system** allowing the **intake of primary air at high pressure by suction**. By simply and safely increasing the evaporation performance of the evaporator, the Venturi Performance system developed by CDL.

MAIN FEATURES

FUEL	WOOD
SIZES	12 models from 2'x4' to 4'x15'
EFFICIENCY	Up to 40% more output
AVAILABLE OPTION	Wide choice of options available

- High evaporation performance at an affordable price
- Longer lifetime
- Uniform boiling in the front, warmer in the back
- No need to preheat smokestack
- Full boiling performance after 10 minutes
- Perfect functioning even in low pressure (bad winds)
- Fully reversible
- Fewer bricks needed
- Easy to operate and the risk of errors are very limited
- No risks of flame flashbacks
- Boiling intensity can be adjusted easily

Interchangeable and reversible sap inlet and outlet

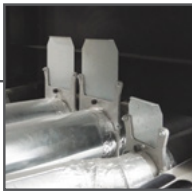

100% REVERSIBLE EVAPORATOR!

TEMPERATURE MAINTAINED AUTOMATICALLY USING A BLOWER AND A SENSOR LOCATED IN THE SMOKE STACK

IMPROVED OPERABILITY AND RELIABILITY

MODIFY THE AIR % TO YOUR PREFERENCE USING SHUTTERS

The CDL energy efficient **Intens-O-Fire 2** wood evaporator is the only one on the market that allows the user to choose manually between two different types of firewood combustion: **air forced combustion** or **combustion by gasification**.

MAIN FEATURES

FUEL	WOOD (soft or hard)	
SIZES	Available sizes : 2½' x 8' to 6' x 18'	
CONSUMPTION	Wood consumption 40% less than a conventional evaporator	
IDEAL FOR	Balance between performance and boiling stability	
<div><div><div>■ Meets the environmental requirements of greenhouse gas emissions</div><div>■ Load every 20 to 40 minutes depending on combustion type</div></div><div><div>■ Winner of water gallons evaporated per hour - Maplerama 2011</div><div>■ Front and rear air distribution control for the combustion chamber and grates</div><div>■ Flow inverter (optional)</div></div><div><div>■ Syrup pan</div><div>■ Water level</div><div>■ Modulation for combustion air (optional)</div></div></div>		
Interchangeable and reversable sap inlet and outlet		

100% REVERSIBLE!

- **SIMPLE OPERATION**
- **AUTOMATED AIR MANAGEMENT**
- **ERGONOMIC CONTROL PANEL**
- **120 V PLUG IN THE FRONT OF THE EVAPORATOR**
- **LESS MAINTENANCE**

The CDL **Chinook** Evaporator has an **automated air adjustment system** that allows a highly efficient, non-polluting combustion, even if the operator burns poor quality firewood with variable humidity.

MAIN FEATURES

FUEL	WOOD (soft or hard)		
SIZES	Available sizes : 2½' x 8' to 6' x 18'		
CONSUMPTION	0.24 medium quality wood cord (24") per barrel (32 G) of syrup (15 Brix)		
IDEAL FOR	Get up to 85% energy efficiency while benefiting from automation and ease of use.		
<div><div><div><div><div><div></div><div>Clean combustion, very little polluting emissions</div></div><div><div></div><div>Complete temperature control in the chimney (maximum 650°F).</div></div><div><div></div><div>Time between wood loading: 30 to 60 minutes, depending on quantity and wood quality</div></div></div></div><div><div><div><div><div></div><div>Very efficient, quick start-up and ignition</div></div><div><div></div><div>Boiling stability comparable to pellet and oil evaporators</div></div><div><div></div><div>Very quiet</div></div><div><div></div><div>Combustion creosote free</div></div></div></div><div><div><div><div><div></div><div>Very safe</div></div><div><div></div><div>Stable syrup draw-off</div></div><div><div></div><div>Syrup pan</div></div><div><div></div><div>Heat exchanger</div></div><div><div></div><div>Water level</div></div></div></div></div></div></div></div>			

Interchangeable and reversible sap inlet and outlet

DELUXE

CDL's **Deluxe** oil evaporator was designed for small and medium-sized sugarbush producers. This evaporator is very efficient and gives its owner an incomparably comfortable and stable boiling experience. This equipment is very reliable and very simple to operate. **To use it is to adopt it.**

MAIN FEATURES

FUEL	OIL, NATURAL GAS OR PROPANE	
SIZES	Available in sizes : 2' x 6' to 6' x 18'	
CONSUMPTION	Perfect for small and medium producers. Hassle-free boiling stability and easy operation.	
AVAILABLE OPTIONS	Automatic draw-off valve. Syrup drip tray. Hood pre-heater. Permeate pre-filter. Steam pan. Protect-O Level controller protection	
<ul style="list-style-type: none"> ■ Oil furnace ■ Carlin or Beckett burner ■ Complete stack with covers and roof jacks ■ Insulated burner cover. 	<ul style="list-style-type: none"> ■ Flue pan and syrup pans 	<ul style="list-style-type: none"> ■ Front and rear float boxes

THE MASTER OF EVAPORATORS!

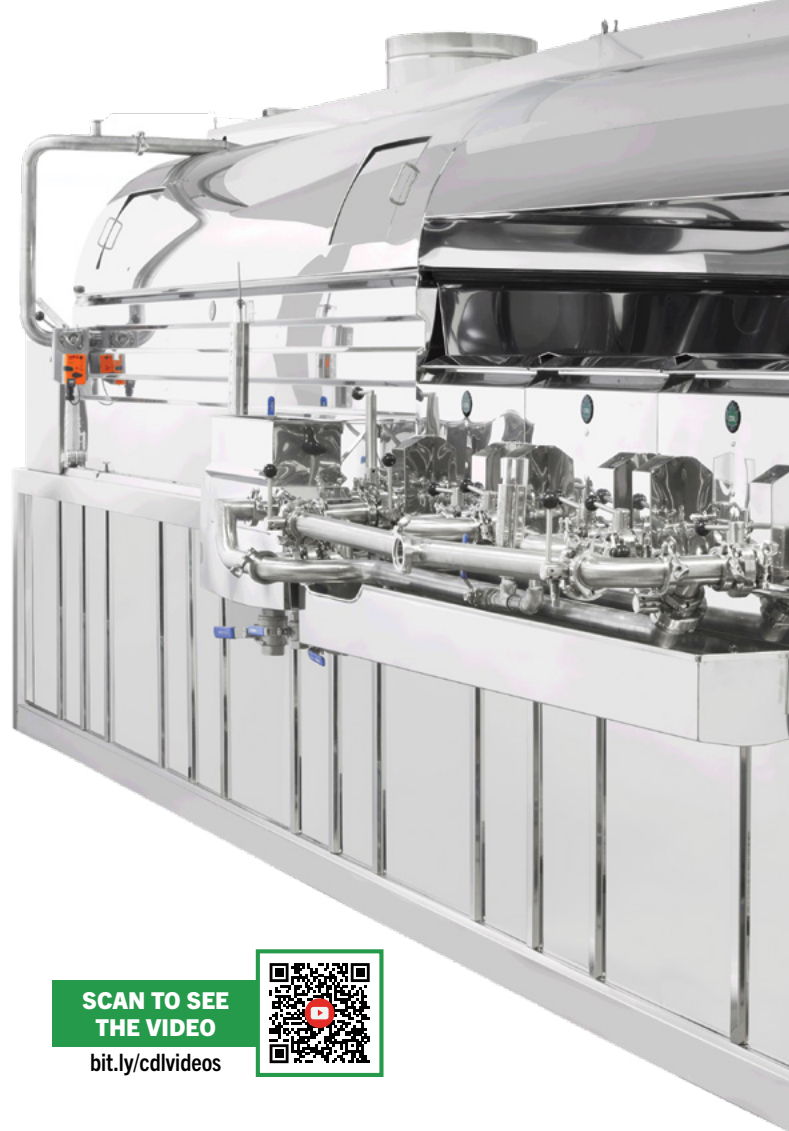

FOR THE FOLLOWING REASONS:

- Rogged and quality construction
- Energy efficiency
- Easy to operate
- Boiling stability
- Boiling conditions adjustment and flexibility from 2 to 35 Brix
- Longer boiling time without pan change
- Flavor and authenticity of maple syrup
- Evaporation performance
- Energy costs / labor per barrel
- Easy cleaning

**CONFIGURATION 50/50
AVAILABLE!**

SCAN TO SEE
THE VIDEO
bit.ly/cdlvideos

The CDL **Master** Evaporator is the only evaporator on the market evaporating over:
5.1 Imp. gal. / ft² or 6 U.S. gal. /ft² of pan.

WOOD - CHIPS - PELLETS	
FUEL	WOOD, CHIP OR PELLETS
SIZES	3' x 11' to 7' x 18'
EFFICIENCY	Ability to produce up to 3½ barrels/hour (18° Brix), 6 barrels/hour (30° Brix) with the 7' x 18' pellet model
Interchangeable and reversible sap inlet and outlet	

OIL	
FUEL	OIL
SIZES	3' x 11' to 7' x 18'
CONSUMPTION	0,195 gallons of oil per gallon of syrup
Interchangeable and reversible sap inlet and outlet	

Wood model shown

RIELLO BURNER

Allows flame modulation between 20% to 100% to perfectly adapt the boil to you need.

Distributes the flame efficiently and more environmentally friendly.

THE MOST ECONOMICAL ON THE MARKET!

INCLUDED OR AVAILABLE OPTIONS

- Syrup flow reverser
- Double pass flue pan
- Syrup drip tray
- Multi-pass syrup pan
- Permeate or concentrate preheater
- Mechanical or electrical level control
- Control panel with 110 V electric outlet
- Front/rear Protec-0
- Front/Rear pan washer
- Modulated motorized level control

PROPANE AND NATURAL GAZ	
FUEL	PROPANE AND NATURAL GAZ (Burner option: Powerflame or Riello)
SIZES	3' x 11' à 7' x 18'
CONSUMPTION	PROPANE: 0,26 gallons per gallon of syrup NATURAL GAZ: 28,6 cubic feet per gallon of syrup
Interchangeable and reversible sap inlet and outlet	

MASTER 30+ RO COMBO ADVANTAGES

- **Best energy + labor costs** per barrel on the market
- Decrease energy costs by at least 40%
- Complete range available allowing a production from **2 to 7.5 barrels per hour**
- Available for wood, chips, pellets, oil, propane or natural gaz
- Labor cost for boiling is reduced from 30 to 50%
- **Quick Return on Investment**
- Preserve the flavor and **authenticity of the syrup**
- **Decrease boiling time** significantly

UNIQUE TECHNOLOGY IN THE MAPLE SUGARING INDUSTRY.

HIGH PRESSURE STEAM EVAPORATOR

MAIN FEATURES

COMBUSTIBLE	OIL, PROPANE, NATURAL GAS AND GAS COMBINATION
DIMENSIONS	25 HP, 35 HP, 50 HP ET 60 HP without certifications, up to 300 HP
EFFICIENCY	Unmatched evaporation power per square foot
AVAILABLE OPTIONS	Automated washing system, steam pan and flow reverser

INCLUDES:

- > R7 pan only including sight glass level, draw off valve and electric valve with levato
- > Single inner coil
- > Hood with door glass
- > Stack, roof jack & collar
- > Stainless steel support table with two 120 V electrical outlets
- > Delivery and start-up by a CDL technician

OPTIONAL:

- > Steam blower
- > Pan Washer
- > Steam Pan
- > Sequential automated washing system for steam pans
- > LED light
- > Reverse Flow
- > Double coil
- > Thermoregulator

The R7 high pressure steam evaporator from CDL allows evaporation of sap, concentrate or maple syrup from **2 to 66 Brix**.

The R7 offers **optimal control of the heat and evaporation intensity allowing great flexibility.**

This high-tech and high performance steam evaporation system **brings unmatched evaporation per square foot power.**

Available from 25 HP to 60 HP without any certifications/license card. Power can reach up to 300 HP depending on the regulations in your area.

STEAM BOILER

- > Very low water level in pan;
- > Ultra-quick start and stop;
- > No need to change coils and cleaning directly in pan;
- > No pan change needed;
- > No risk of burning the pans.

Useful features of steam generator system:

- > Barrel cleaning;
- > Maple syrup warming;
- > Quick and efficient cooking for processing.

**THE LONG-AWAITED EVENT:
THE UNVEILING OF**

CDL ELECTRIC EVAPORATOR

MAY 2022

**CDL introduces a new evaporation system
with unrivaled efficiency on the market.
This evaporator runs entirely on electric power
and offers another true green technology
in the CDL product offering.**

KEY FEATURES

**Unmatched energy efficiency • Specially designed for the evaporation of high Brix concentrate
Small footprint • Short residence time ensuring the production of a quality syrup**

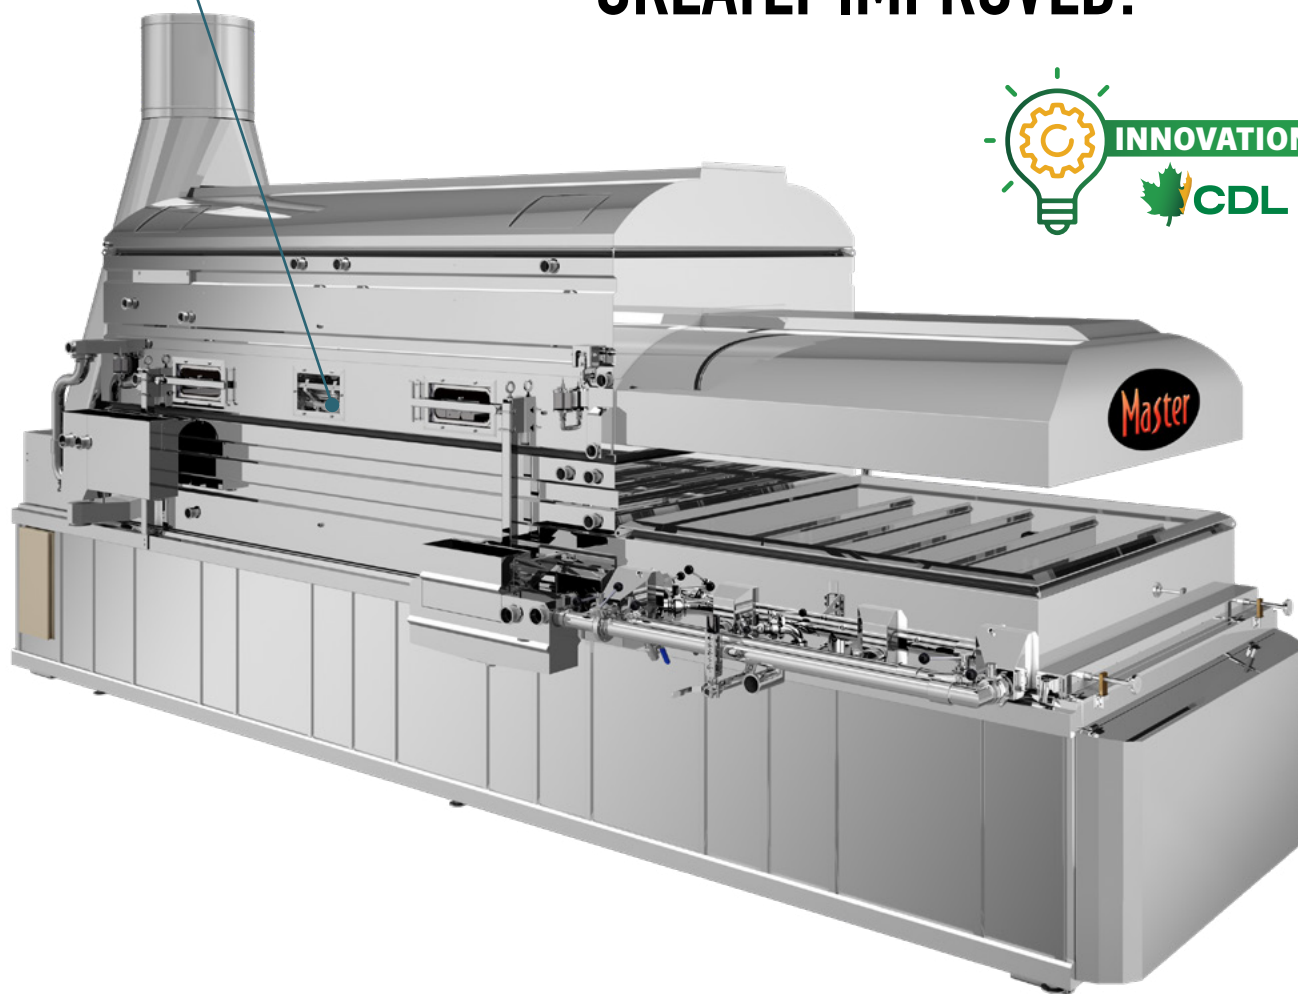

STEAM PAN OPTION FOR EVAPORATORS

Option available with:

STEAM
PAN

PERFORMANCE AND EFFICIENCY GREATLY IMPROVED!

**Improve performance
and efficiency by up to 50%
without additional
fuel consumption.**

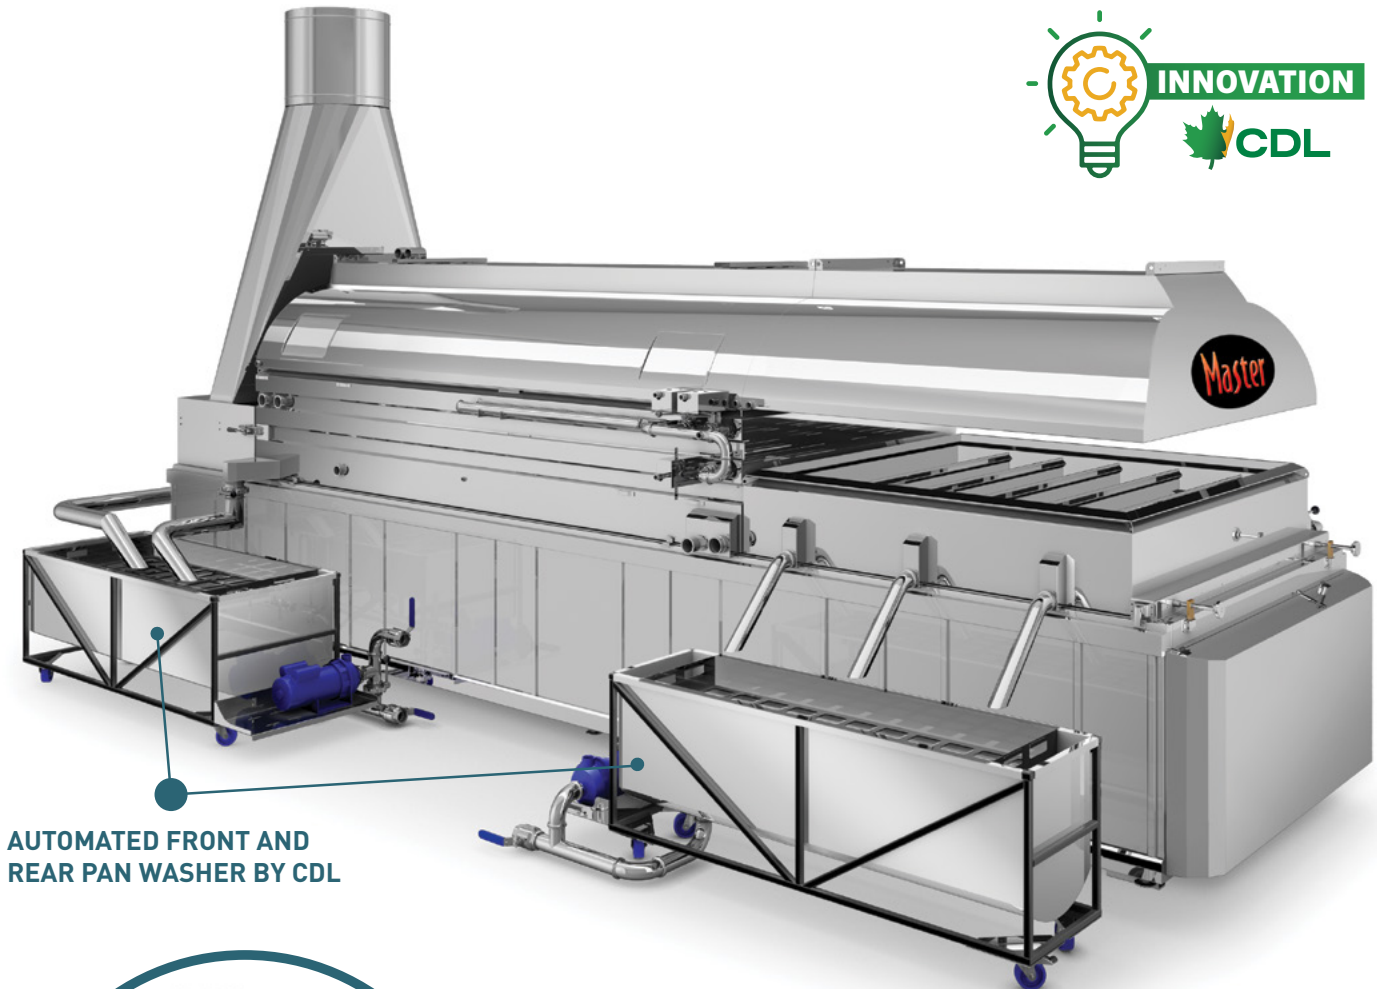

Sizes available : 2' x 4' to 7' x 12'

ADVANTAGES

- The use of the steam pan causes a significant reduction in energy consumption by reusing the steam produced by the flue pan. This reduction in energy consumption can be up to 50% depending on the Brix at the input of the pan;
- This option can be installed on all types of evaporators (wood, pellet, oil).

EVAPORATOR PAN WASHER OPTION :

Option available with:

AUTOMATED FRONT AND
REAR PAN WASHER BY CDL

Rear
view

**A must for anyone looking to
improve and simplify their operation.**

Available as an option for Venturi, Intense-O-Fire 2, Chinook, Deluxe, Master and R7 evaporators models, the pan washer by CDL is completely automated and sequential.

With its complete non-contact wash and continuous washing circuit, it eliminates stubborn stains and greatly reduces the daily workload.

INSULATED SYRUP CALIBRATION TANK

The new CDL insulated syrup calibration tank has a stainless steel insulated tank and an integrated mixer.

Easy to use, thanks to a built-in washing system, a recirculation pump and a base on wheels. Simplifies and improves calibration of the syrup before filling barrels.

ADVANTAGES

- Controlled temperature;
- Real-time Brix reading;
- Perfect maple syrup calibration;
- Simplifies operation.

250 GAL.	4' x 4' x 3'	6793443
350 GAL.	4' x 4' x 4-1/2'	67934445
Insulated calibration tank starter control case		6793001

Real-time Brix reading available in option

Homogenize syrup before filling barrels with the real-time Brix reader that can read between 5 °C and 100 °C (41 °F and 212 °F) and up to 80 Brix with full precision due to automatic temperature compensation for accurate reading.

circulation pump.

WATER JACKETED CALIBRATION TANK

Calibrate and bottle your syrup confidently thanks to our brand new water jacketed calibration tank with a capacity of 130 imperial gallons.

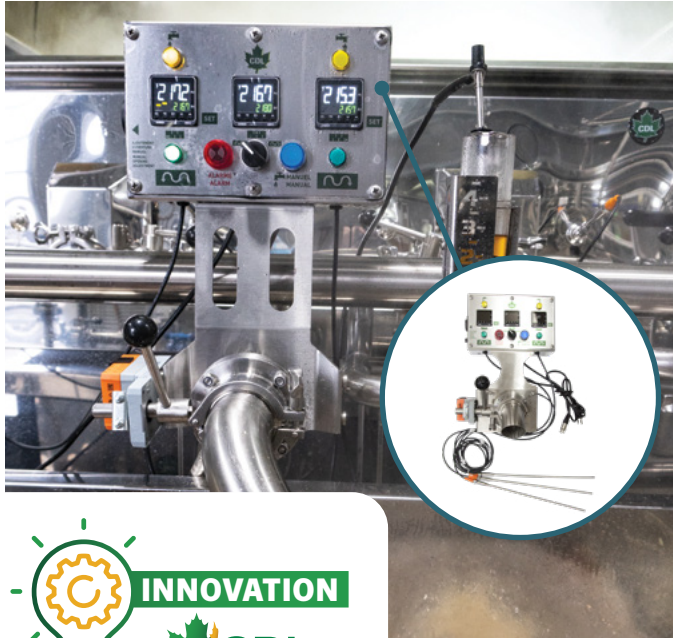

The two 5 000 W (240 V) electric elements heat water in the double wall, gently warming your syrup to the desired temperature. The height of the tank has been designed to fill all types of syrup barrels or totes. The wheeled frame is made of stainless steel. This water jacketed tank kit includes an electric diaphragm pump, a water thermometer, a water and syrup level gauge, and an air agitation system. The Brix reader (optional) will give you greater precision and consistency in the Brix level of your syrup.

This system, inspired by large operations, is now accessible to everyone!

DRAW-OFF VALVES

Ideal for evaporator with a flow reverser

Modulating draw-off valve multiple control 2" 66783

Modulating draw-off valve multiple control 2-1/2" 66784

Clips, silicone gasket and spout not included.

ADVANTAGES

- Continuous maple syrup draw-off;
- Eliminates the return effect of the syrup into the pans;
- Eliminates large volume draw-offs;
- Improves the constancy of Brix;
- Easier maple syrup filtration.

Modulating draw-off valve 1-1/2" 66781

Modulating draw-off valve 2" 66775

Modulating draw-off valve 2-1/2" 66782

NEW

SEPARATING FILTER PRESS PLATE

Allows you to use only part of your filter press to filter a small quantity. Less cleaning and use less papers.

10" CDL press (old CDL model)	6660010PLATE
10" CDLWESFAB press	WFCDL10PLATE
15" CDLWESFAB press	WFCDL15PLATE
20" CDL press (3 holes)	666218

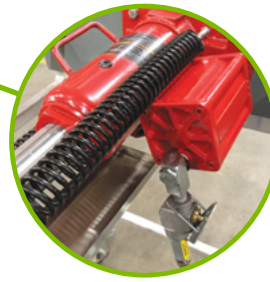

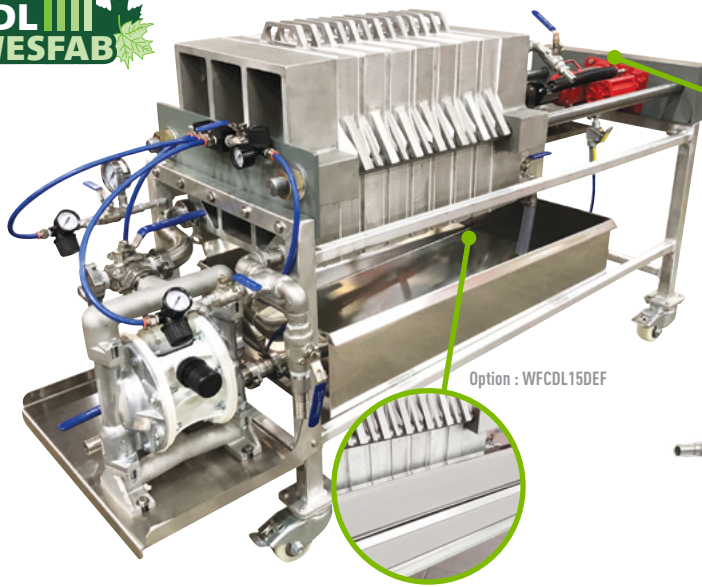

10" press

ADVANTAGES (7" and 10" presses)

- > Reclinable press (0, 45 and 90 degrees with the cart option) to facilitate the replacement of filter papers;
- > Removable pump kit (to use on another filter press).

	7" presses	10" presses
Short filter press + manual diaphragm pump 3 hollow / 2 waffles	WFCDL7M	-
3 hollow / 2 waffles	WFCDL732	WFCDL1032
4 hollow / 3 waffles	WFCDL743	WFCDL1043
7 hollow / 6 waffles	WFCDL776	WFCDL1076
8 hollow / 7 waffles	WFCDL787	WFCDL1087
Available options:		
Air dia. pump kit 1/2"	WFCDL7ADP12	WFCDL10ADP12
Dia. pump kit 120v 1/2" 5.3 GPM	WFCDL7EDP1253	WFCDL10EDP1253
Filter press cart	WFCDL7CH	WFCDL10CH
Air distributor option	WFCDL710AIRM	WFCDL710AIRM
Air inlet kit <small>The air supply must be filtered using the 66345657K air filter kit.</small>	WFCDL7AIRI	WFCDL10AIRI
Air outlet kit <small>The air supply must be filtered using the 66345657K air filter kit.</small>	WFCDL7AIRO	WFCDL10AIRO

Option : WFCDL15DEF

ADVANTAGES (15" presses)

- > Tightening with a 12 ton hydraulic cylinder with food grade oil, pneumatic or manually operated (not necessary to have compressed air);
- > Drip tray connected to the pump (Useful for closed loop de-sugaring or for pumping syrup from the tray);
- > Bypass valve installed on the front plate for greater efficiency;
- > Drainage of the inlet and outlet in the drip tray through the front plate;
- > Air drainage (optional);
- > Reverse air flow in the press outlet to extend filtration (optional).

20" filter press 3 holes
Filtration capacity : 10 to 50 barrels

ADVANTAGES (20" presses)

- > Easy paper installation
- > Higher filtration capacity
- > Cart on wheels
- > Syrup drip tray
- > 15 to 50 barrel filtration capacity
- > 3" thick hollow plates

15" presses

7 hollow / 6 waffles	WFCDL1576

STAINLESS STEEL BARRELS

The CDL barrel is designed according to the recommendations of the Federation of Maple Syrup Producers.

Capacity: 13 IMP. GAL. (15 US GAL.)
Empty weight (Tare): 29 lb
1 plastic cap (2" center)

66819R

Capacity: 34 IMP. GAL. (40 US GAL.)
Empty weight (Tare): 48 lb
2 plastic caps (2" off-center)

66810

ONLY AVAILABLE
IN THE USA

Capacity: 34 IMP. GAL. (40 US GAL.)
Empty weight (Tare): 48 lb
2 plastic caps (2" and 3/4" off-center)

66813

ONLY AVAILABLE
IN CANADA

Capacity: 34 IMP. GAL. (40 US GAL.)
Empty weight (Tare): 49.6 lb
2 plastic caps - 2" (one center and one off-center)

66816

ONLY AVAILABLE
IN CANADA

Capacity: 45 IMP. GAL. (55 US GAL.)
Empty weight (Tare): 59 lb
2 plastic caps (2" and 3/4" off-center)

668161

Models may differ from those shown.

ADVANTAGES

- All lower joints completely welded;
- Designed for the complete drainage of syrup or washing water;
- Drip hole on top; No hole on the side;
- Edges with pronounced curves facilitating the handling of the barrels;
- Same dimensions as conventional galvanized barrels;
- Stackable.

PUMP AND BARREL TRANSFER

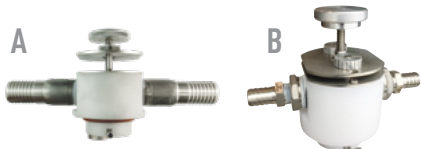

Pneumatic stainless steel barrel pump

DRUPUM

ADVANTAGES

- Allows you to empty a barrel of syrup faster;
- Quicker than a pump;
- Empty barrels of syrup without making a mess;
- Very easy to use.

8" automatic maple sugar machine	668855A
8" double automatic maple sugar machine	668856A

ADVANTAGES

- Fully automated;
- Uniform granulation;
- Can function without supervision;
- Available without automation if requested;
- Made of stainless steel;
- 3 in 1: mixer, grinder and dryer;
- Self-cleaning with hot water.

sales manager – packaging division

TIPS FOR **PACKAGING** MAPLE SYRUP IN BULK

Bottle the syrup while it's hot to make sure that it doesn't ferment, as it contains no stabilizers or preservatives. It doesn't matter how the syrup is heated, only the temperature is important. That said, the syrup gets darker each time it's reheated, which could change the grade. The intensity of heat, the cooking time, and type of container could also affect the product. You don't need to bring the syrup to a boil to repackage it. The syrup should be packed at a temperature of at least 180 °F, ideally 185 °F. Otherwise, it may ferment.

Check the sugar content: It should be at 66 Brix (66% sugar). If the syrup is below this value, it will need to be boiled longer. If it is too thick, filtrate and/or maple water should be added to lower the sugar content. It is important not to bottle syrup that's too thick. The sugar will crystallize and settle at the bottom of the container. The sugar level can be measured with a hydrometer or density meter.

Ideally, always **filter the syrup** after it's been heated, even if you've already filtered it. Make sure the **containers are clean**. When filling small containers, especially glass ones, heat the syrup above 180 °F because the container will absorb a lot of heat, cooling the syrup. Another way around this problem is to preheat the containers before filling them. Something to keep in mind when filling containers: maple syrup will shrink by 4% as it cools.

Once a container is full, quickly **close the cap or lid and turn the container on its side or upside down for 30 seconds** to sterilize the inside of the cap or lid. Some people recommend that sealed containers be cooled quickly so that the syrup stays as pale as possible.

IMPORTANT NOTE FOR PLASTIC CONTAINERS

Most plastic containers do not have an oxygen barrier, which means that the syrup will be oxidized as oxygen passes through the plastic. After a few weeks, the syrup will start to darken. It is best to always wait until the last minute before packaging syrup in a plastic container, because after 2 or 3 months, the syrup will lose at least 1 grade and your labels will no longer accurately describe the product. Some companies offer a latex coating on their containers. It helps, but only for 2 to 3 months. There are also multi-layer containers that are moulded with an oxygen barrier. This type of plastic container does not allow the syrup to oxidize, making it as good as a glass or metal container.

Ask your CDL representative or store to discover our range of containers!

CDL JUG Collection

Caps
included

Durable and compact, the CDL jugs were designed for the reality of today's maple syrup producers. Discover this new collection, which features a modern, vibrant and exclusive look while respecting the classic side of this great tradition.
